

Aphorisms from Real World Views

1. *"For the peace of the world and the peace within, man must learn to live in harmony with the changes in the four octaves - the sociotechnocosmic octave, the nature octave, the tritocosmic octave and the cosmic octave."*
2. *"When there is movement there is life. A drop of life is a drop of psyche hydrogens, and life is sustained through the continuous circulation of psyche hydrogens in our body."*
3. *"There is no boundary imposed on its possibility of evolution as the Fourthway ManHo Center is only one of the tiny but significant sociocosmic instruments of the Great Common Cosmic Ansanbaluiazar for tritocosmic, sociocosmic and technocosmic transformation."*
4. *"Everything connects to everything and flows into everything"*
5. *"Strive to work towards all peace and all good world of ManHo in the Great One where everything has always been eating everything and in turn has always been eaten up by everything again and again."*
